## **INTRODUCTION**

Tom Green County Indigent Health Care Program is governed by the Texas Health and Safety Code Chapter 61.

Tom Green County Commissioners Court and the Tom Green County Treasurer acting as Indigent Health Care Director is committed to ensure that the needy inhabitants of the County receive quality health care services in an equitable and non-discriminatory manner through County Indigent Care Plan. In addition; we believe quality medical care services can be provided to the County's needy inhabitants in a manner that is fair and equitable, efficient and without undue expense of local taxpayer dollars, which fund such care.

These Indigent Care Plan Policies are approved annually by Tom Green County Commissioners Court and intended to provide guidelines and rules for the qualification and enrollment of participants into the County's Indigent Care Plan per the guidelines provided by the Texas Department of State Health Services and pursuant to the Indigent Health Care and Treatment Act. In addition, these policies are intended to ensure the delivery of quality and medically necessary healthcare services to Plan participants in a fair and non-discriminatory manner.

These policies are not intended to apply to persons who do not qualify for the program pursuant to Ch. 61 of the Texas Health & Safety Code.

These Indigent Care Plan Policies are intended to cover the delivery of health care services to indigent residents of the County. Employees of Tom Green County are not eligible for the plan, therefore, these policies do not create benefits or rights under ERISA, COBRA or other employment-related statutes, rules or regulations. These policies are intended to comply with medical privacy regulations imposed under HIPAA and other state regulations but are superseded by such statutes to the extent of any conflict. Compliance with ADA and other regulations pertaining to disabled individuals shall not be the responsibility of the County, but shall be the responsibility of those medical providers providing services to the County's needy inhabitants. As a County, only certain provisions of the Indigent Healthcare and Treatment Act (Ch. 61 Texas Health & Safety Code) apply to services provided by the County, including these Policies.

These policies may be amended from time to time by official action of the Tom Green County Commissioners Court.

Proof may include but is not limited to:

- Lease agreement or
- Statement from a landlord, a neighbor, or other reliable source.

## **RESOURCES**

### **General Principles**

- A household must pursue all resources to which the household is legally entitled unless it is unreasonable to pursue the resource. Reasonable time (at least three months) must be allowed for the household to pursue the resource, which is not considered accessible during this time.
- The resources of all household members are considered.

Resources are either countable or exempt.

- Resources from disqualified and non-household members are excluded, but may be included if processing an application for a sponsored alien.
- A household is not eligible if the total countable household resources exceed:
  - \$3,000.00 when a person who is aged or has disabilities and who meets relationship requirements lives in the home or
  - \$2,000.00 for all other households.
- A household is not eligible if their total countable resources exceed the limit on or after:

- Consider a joint bank account with a nonmember as inaccessible if the money in the account is used solely for the nonmember's benefit. The household must provide verification that the bank account is used solely for the nonmember's benefit and that no household member uses the money in the account for their benefit. If a household member uses any of the money for their benefit or if any household member's money is also in the account, consider the bank account accessible to the household.

## **TYPES OF RESOURCES**

### **Alien Sponsor's Resources**

DHSH Statement – County must provide written guidelines

Calculate the total resources accessible to the alien sponsor's household according to the same rules and exemptions for resources that apply for the sponsored alien applicant. The total countable resources for the alien sponsor household will be added to the total countable resources of the sponsored alien applicant.

Please refer to Texas Health and Safety Code, Chapter 61, §61.012.

### **Bank Accounts**

Count the cash value of checking and savings accounts unless exempt for another person.

### **Burial Insurance (Prepaid)**

Exempt up to \$7,500 cash value of a prepaid burial insurance policy, funeral plan, or funeral agreement for each certified household member.

Count the cash value exceeding \$7,500 as a liquid resource.

### **Burial Plots**

Exempt all burial plots.

### **Crime Victim's Compensation Payments-See Glossary**

Exempt.

### **Energy Assistance Payments**

Exempt payments or allowances made under any federal law for the purpose of energy assistance.

### **Exemption: Resources/Income Payments**

If a payment or benefit counts as income for a particular month, do count it as a resource in the same month. If you prorate a payment income over several months, do not count any portion of the payment resource during that time. A benefit may not be counted more than once. An amount will either be income of a resource.

**Example:** Income of students or self-employed persons that is prorated over several months.

If the client combines this money with countable funds, such as a bank account, exempt the prorated amounts for the time you prorate it.

### **Homestead**

Exempt the household's usual residence and surrounding property not separated by property owned by others. The exemption remains in effect if public rights of way, such as roads, separate the surrounding property from the home. The homestead exemption applies to any structure the person uses as a primary residence, including additional buildings on contiguous land, a houseboat, or a motor home, as long as the household lives in it. If the household does not live in the structure, count it as a resource.

Houseboats and Motor Homes. Count houseboats and motor homes according to vehicle policy, if not considered the household's primary residence or otherwise exempt.

Own or Purchasing a Lot. For households that currently do not own a home, but own or are purchasing a lot on which they intend to build, exempt the lot and partially completed home.

Real Property Outside of Texas. Households cannot claim real property outside of Texas as a homestead, except for migrant and itinerant workers who meet the residence requirements.

Homestead Temporarily Unoccupied. Exempt a homestead temporarily unoccupied because of employment, training for future employment, illness (including health care treatment), casualty (fire, flood, state of disrepair, etc.), or natural disaster, if the household intends to return.

Sale of a Homestead. Count money remaining from the sale of a homestead as a resource.

### **Income- Producing Property**

Exempt property that:

- Is essential to a household member's employment or self-employment (examples: tools of a trade, farm machinery, stock, and inventory). Continue to exempt this property during temporary periods of unemployment if the household member expects to return to work;
- Annually produces income consistent with its fair market value, even if used only on a seasonal basis; or
- Is necessary for the maintenance or use of a vehicle that is exempt as income producing or as necessary for transporting a physically disabled household member. Exempt the portion of the property used for this purpose.

For farmers or fishermen, continue to exempt the value of the land or equipment for one year from the date that the self-employment ceases.

### **Insurance Settlement**

Count, minus any amount spent or intended to be spent for the Household's bills for burial, health care, or damaged/lost possessions.

### **Lawsuit Settlement**

Count, minus any amount spent or intended to be spent for the household's bills for burial, legal expenses, health care expenses, or damaged/lost possessions.

### **Life Insurance**

Exempt the cash value of life insurance policies.

### **Liquid Resources**

Count, if readily available. Examples include but are not limited to cash, checking account(s),-savings account(s),-certificate(s) of deposit (CDs), notes, bonds, and stocks.

### **Loans (Non-Educational)**

Exempt these loans from resources.

Consider financial assistance as a loan if there is an understanding that the loan will be repaid and the person can reasonably explain how he will repay it.

Count assistance not considered a loan as unearned income (contribution).

### **Lump-Sum Payments**

Effective January 1, 2013 exempt federal tax refunds permanently as income and resources for 12 months after receipt. Exempt the Earned Income Credit (EIC) for a period of 12 months after receipt through December 31, 2018.

Count lump sum payments received once a year or less frequently as resources in the month received, unless specifically exempt.

Countable lump-sum payments include but are not limited to lump-sum insurance settlements, lump-sum payments on child support, public assistance, refunds of security deposits on rental property or utilities, retirement benefits, and retroactive lump sum RSDI.

Count lump-sum payments received or anticipated to be received more often than once a year as unearned income in the month received.

Exception: Count Contributions, gifts, and prizes as unearned income in the month received regardless of the frequency of receipt.

### **Personal Possessions**

Exempt.

### **Real Property**

Count the equity value of real property unless it is otherwise exempt. Exempt any portion of real property directly related to the maintenance or use of a vehicle necessary for employment or to transport a physically disabled household member. Count the equity value of any remaining portion unless it is otherwise exempt.

Good Faith Effort to Sell. Exempt real property if the household is making a good effort to sell it.

Jointly Owned Property. Exempt property jointly owned by the household and other individuals not applying for or receiving benefits if the household provides proof that he cannot sell or divide the property without consent of the other owners and the other owners will not sell or divide the property.

## **Reimbursement**

Exempt a reimbursement in the month received. Count as a resource in the month after receipt.

Exempt a reimbursement earmarked and used for replacing and repairing an exempt resource. Exempt the reimbursement indefinitely.

## **Retirement Accounts**

A retirement account is one in which an employee and/or his employer contribute money for retirement. There are several types of retirement plans.

Some of the most common plans authorized under Section 401 (a) of the Internal Revenue Services (IRS) Code are the 401 (k) plan, Keogh, Roth Individual Retirement Account (IRA), and a pension or traditional benefit plan. Common plans under Section 408 of the IRS Code are the IRA, Simple IRA and Simplified Employer Plan.

A 401K plan allows an employee to postpone receiving a portion of current income until retirement.

An individual retirement account (IRA) is an account in which an individual contributes an amount of money to supplement his retirement income (regardless of his participation in a group retirement plan).

A Keogh plan is an IRA for a self-employed individual.

A Simplified Employee Pension (SEP) plan is an IRA owned by an employee to which an employer makes contributions or an IRA owned by a self-employed individual who contributes for himself.

A pension or traditional defined benefit plan is employed based and promises a certain benefit upon retirement regardless of investment performance.

Exclude all retirement accounts or plans established under:

- Internal Revenue Code of 1986, Sections 401(a), 403(a), 403(b), 408, 408A, 457(b), 501(c)(18);
- Federal Thrift Savings Plan, Section 8439, Title 5, United States Code; and
- Other retirement accounts determined to be tax exempt under the Internal Revenue Code of 1986.

Count any other retirement accounts not established under plans or codes listed above.

## **Trust Fund**

Exempt a trust fund if all of the following conditions are met:

- The trust arrangement is unlikely to end during the certification period; and
- No household member can revoke the trust agreement or change the name of the beneficiary during the certification period; and

- The trustee of the fund is either a
  - Court, institution, corporation, or organization not under the direction or ownership of a household member; or
  - Court-appointed individual who has court-imposed limitations placed on the use of the funds; and
- The trust investments do not directly involve or help any business or corporation under the control, direction, or influence of a household member. Exempt trust funds established from the household's own funds if the trustee uses the funds
  - Only to make investments on behalf of the trust or
  - To pay the education or health care expenses of the beneficiary.

## Vehicles

Exempt a vehicle necessary to transport physically disabled household members, even if disqualified and regardless of the purpose of the trip. Exempt no more than one vehicle for each disabled member. There is no requirement that the vehicle be used primarily for the disabled person.

Exempt vehicles if the equity value is less than \$4,650, regardless of the number of vehicles owned by the household. Count the value in excess of \$4,650 toward the household's resource limit.

Refer to Appendix V for annual updates and graph

Income-producing Vehicles. Exempt the total value of all licensed vehicles used for income-producing purposes. This exemption remains in effect when the vehicle is temporarily not in use. A vehicle is considered income producing if it:

- Is used as a taxi, a farm truck, or fishing boat,
- Is used to make deliveries as part of the person's employment,
- Is used to make calls on clients or customers,
- Is required by the terms of employment, or
- Produces income consistent with its fair market value.

Solely Owned Vehicles. A vehicle, whose title is solely in one person's name, is considered an accessible resource for that person. This includes the following situations:

- Consider vehicles involved in community property issues to belong to the person whose name is on the title.
- If a vehicle is solely in the household member's name and the household member claims he purchased it for someone else, the vehicle is considered as accessible to the household member.

Exceptions: The vehicle is inaccessible if the titleholder verifies: [complete documentation is required in each of the situations below]

- That he sold the vehicle but has not transferred the title. In this situation, the vehicle belongs to the buyer. Note: Count any payments made by the buyer to the household member or the household member's creditors (directly) as self-employment income.
- That he sold the vehicle but the buyer has not transferred the title into the buyer's name.
- That the vehicle was repossessed.
- That the vehicle was stolen.
- That he filed for bankruptcy (Title 7, 11, or 13) and that the household member is not claiming the vehicle as exempt from the bankruptcy.
  - Note: In most bankruptcy petitions, the court will allow each adult individual to keep one vehicle as exempt for the bankruptcy estate. This vehicle is a countable resource.

A vehicle is accessible to a household member even though the title is not in the household member's name if the household member purchases or is purchasing the vehicle from the person who is the titleholder or if the household member is legally entitled to the vehicle through an inheritance or divorce settlement.

Jointly Owned Vehicles. Consider vehicles jointly owned with another person not applying for or receiving benefits as inaccessible if the other owner is not willing to sell the vehicle.

Leased Vehicles. When a person leases a vehicle, they are not generally considered the owner of the vehicle because the

- Vehicle does not have any equity value,
- Person cannot sell the vehicle, and
- Title remains in the leasing company's name.

Exempt a leased vehicle until the person exercises his option to purchase the vehicle. Once the person becomes the owner of the vehicle, count it as a resource. The person is the owner of the vehicle if the title is in their name, even if the person and the dealer refer to the vehicle as leased. Count the vehicle as a resource.

#### How To Determine Fair Market Value of Vehicles.

- Determine the current fair market value of licensed vehicles using the average trade-in or wholesale value listed on a reputable automotive buying resource website (i.e., National Automobile Dealers Association (NADA), Edmunds, or Kelley Blue Book). Note: If the household claims that the listed value does not apply because the vehicle is in less-than-average condition, allow the household to provide proof of the true value from a reliable source, such as a bank loan officer or a local licensed car dealer.
- Do not increase the basic value because of low mileage, optional equipment, or special equipment for the handicapped.
- Accept the household's estimate of the value of a vehicle no longer listed on an automotive buying resource website unless it is questionable and would affect the household's eligibility. In this case, the household must provide an appraisal from a licensed car dealer or other evidence of

the vehicle's value, such as a tax assessment or a newspaper advertisement indicating the sale value if similar vehicles.

- Determine the value of new vehicles not listed on an automotive buying resource website by asking the household to provide an estimate of the average trade-in or wholesale value from a new car dealer or a bank loan officer. If this cannot be done, accept the household's estimate unless it is questionable and would affect eligibility. Use the vehicle's loan value only if other sources are unavailable. Request proof of the value of licensed antique, custom made, or classic vehicles from the household if you cannot make an accurate appraisal.

**Penalty for Transferring Resources**

A household is ineligible if, within three months before application or any time after certification, they transfer a countable resource for less than its fair market value to qualify for health care assistance.

This penalty applies if the total of the transferred resource added to other resources affects eligibility.

Base the length of denial on the amount by which the transferred resource exceeds the resource maximum when added to other countable resources.

Use the chart below to determine the length of denial.

<b>Amount in Excess of Resource Limit</b>	<b>Denial Period</b>
\$ .01 to \$ 249.99	1 month
\$ 250.00 to \$ 999.99	3 months
\$1,000.00 to \$2,999.99	6 months
\$3,000.00 to \$4,999.99	9 months
\$5,000.00 or greater	12 months

If the spouses separate and one spouse transfers his property, it does not affect the eligibility of the other spouse.

**Verifying Resources**

Verify all countable resources.

Proof may include but is not limited to:

- Bank account statements and
- Award letters.

## **INCOME**

### **General Principles**

A household must pursue and accept all income to which the household is legally entitled, unless it is unreasonable to pursue the income. Reasonable time (at least three months) must be allowed for the household to pursue the income, which is not considered accessible during this time.

- The income of all TGC household members is considered.
- Income is either countable or exempt.
- If attempts to verify income are unsuccessful because the payer fails or refuses to provide information and other proof is not available, the household's statement is used as best available information.
- Income of disqualified and non-household members is excluded, but may be included if processing an application for a sponsored alien.

### **Adoption Payments**

Exempt.

### **Alien Sponsor's Income**

Calculate the total income accessible to the alien sponsor's household according to the same rules and exemptions for income that apply for the sponsored alien applicant. The total countable income for the alien sponsor household will be considered unearned income and added to the total countable income of the sponsored alien applicant.

### **Cash Gifts and Contributions**

Count as unearned income unless they are made by a private, nonprofit organization on the basis of need; and total \$300 or less per household in a federal fiscal quarter. The federal fiscal quarters are January - March, April - June, July - September, and October-December. If these contributions exceed \$300 in a quarter, count the excess amount as income in the month received.

Exempt any cash contribution for common household expenses, such as food, rent, utilities, and items for home maintenance, if it is received from a non-certified household member who:

- Lives in the home with the certified household member,
- Shares household expenses with the certified household member, and
- No landlord/tenant relationship exists.

If a noncertified household member makes additional payments for use by a certified member, it is a contribution.

### **Child Support Payments**

Count as unearned income after deducting up to \$75 from the total monthly child support payments the household receives.

Count payments as child support if a court ordered the support, or the child's caretaker or the person making the payment states the purpose of the payment is to support the child.

Count ongoing child support income as income to the child even if someone else, living in the home receives it.

Count child support arrears as income to the caretaker.

Exempt child support payments as income if the child support is intended for a child who receives Medicaid, even though the parent actually receives the child support.

Child Support Received for a Non-Member. If a caretaker receives, ongoing child support for a non-member (or a member who is no longer in the home) but uses the money for personal or household needs, count it as unearned income. Do not count the amount actually used for or provided to the non-member for whom it is intended to cover.

Lump-Sum Child Support Payments. Count lump-sum child support payments (on child support arrears or on current child support) received, or anticipated to be received more often than once a year, as unearned income in the month received. Consider lump-sum child support payments received once a year or less frequently as a resource in the month received.

Returning Parent. If an absent parent is making child support payments but moves back into the home of the caretaker and child, process the household change.

### **Crime Victim's Compensation Payments**

Exempt.

These are payments from the funds authorized by state legislation to assist a person who has been a victim of a violent crime; was the spouse, parent, sibling, or adult child of a victim who died as a result of a violent crime; or is the guardian of a victim of a violent crime. The payments are distributed by the Office of the Attorney General in monthly payments or in a lump sum.

### **Disability Insurance Payments**

Count disability payments as unearned income, including Social Security Disability Insurance (SSDI) payments and disability insurance payments issued for non-medical expenses. Exception: Exempt Supplemental Security Income (SSI) payments. responsibility. It will be the duty of the Caseworker to contact Crime Victims Assistance to verify if the Applicant is receiving their services.

Count dividends as unearned income. Exception: Exempt dividends from insurance policies as income.

Count royalties as unearned income, minus any amount deducted for production expenses and severance taxes.

- Energy assistance received through HUD, USDA's Rural Housing Service (RHS), or Farmer's Administration (FmHA);

Count as unearned income unless there is an understanding that the money will be repaid and the person can reasonably explain how he will repay it.

### **Lump-Sum Payments**

Count as income in the month received if the person receives it or expects to receive it more often than once a year.

Consider retroactive or restored payments to be lump-sum payments and count as a resource. Separate any portion that is ongoing income from a lump-sum amount and count it as income.

Exempt lump sums received once a year or less, unless specifically listed as income. Count them as a resource in the month received.

Effective January 1, 2013 exempt federal tax refunds permanently as income and resources for 12 months after receipt. Exempt the Earned Income Credit (EIC) for a period of 12 months after receipt through December 31, 2018.

If a lump sum reimburses a household for burial, legal, or health care bills, or damaged/lost possessions, reduce the countable amount of the lump sum by the amount earmarked for these items.

### **Military Pay**

Count military pay and allowances for housing, food, base pay, and flight pay as earned income, minus pay withheld to fund education under the G.I. Bill.

### **Mineral Rights**

Count as unearned income. A pension is any benefit derived from former employment, such as retirement benefits or disability pensions.

### **Reimbursement**

Exempt a reimbursement (not to exceed the individual's expense) provided specifically for a past or future expense. If the reimbursement exceeds the individual's expenses, count any excess as unearned income. Do not consider a reimbursement to exceed the individual's expenses unless the individual or provider indicates the amount is excessive.

Exempt a reimbursement for future expenses only if the household plans to use it as intended.

### **RSDI Payments**

Count as unearned income the Retirement, Survivors, and Disability Insurance (RSDI) benefit amount including the deduction for the Medicare premium, minus any amount that is being recouped for a prior RSDI overpayment.

If a person receives an RSDI check and an SSI check, exempt both checks since the person is a disqualified household member.

If an adult receives a Social Security survivor's benefit check for a child, this check is considered the child's income.

### **Self-Employment Income**

Count as earned income, minus the allowable costs of producing the self-employment income.

Self-employment income is earned or unearned income available from one's own business, trade, or profession rather than from an employer.

However, some individuals may have an employer and receive a regular salary. If an employer does not withhold FICA or income taxes, even if required to do so by law, the person is considered self-employed.

Types of self-employment include:

- Odd jobs or contracts included, but not limited to, mowing lawns, babysitting, and cleaning houses;
- Owning a private business, such as a beauty salon or auto mechanic shop;
- Farm income; and
- Income from property, which may be from renting, leasing, or selling property on an installment plan. Property includes equipment, vehicles, and real property.

If the person sells the property on an installment plan, count the payments as income. Exempt the balance of the note as an inaccessible resource.

### **SSI Payments**

Only exempt Supplemental Security Income (SSI) benefits when the household is receiving Medicaid.

A person receiving any amount of SSI benefits who also receives Medicaid is, therefore, a disqualified household member.

## **TANF**

Exempt Temporary Assistance to Needy Families (TANF) benefits.

A person receiving TANF benefits also receives Medicaid and is, therefore, a disqualified household member.

## **Terminated Income**

Count terminated income in the month received. Use actual income and do not use conversion factors if terminated income is less than a full month's income.

Income is terminated if it will not be received in the next usual payment cycle.

Income is not terminated if:

- Someone changes jobs while working for the same employer,
- An employee of a temporary agency is temporarily not assigned,
- A self-employed person changes contracts or has different customers without having a break in normal income cycle, or
- Someone received regular contributions, but the contributions are from different sources.

## **Third-Party Payments**

Exempt the money received that is intended and used for the maintenance of a person who is not a member of the household.

If a single payment is received for more than one beneficiary, exclude the amount actually used for the non-member up to the non-member's identifiable portion or prorated portion, if the portion is not identifiable.

## **Tip Income**

Count the actual (not taxable) gross amount of tips as earned income. Add tip income to wages before applying conversion factors.

Tip income is income earned in addition to wages that is paid by patrons to people employed in service-related occupations, such as beauticians, waiters, valets, pizza delivery staff, etc.

Do not consider tips as self-employment income unless related to a self-employment enterprise.

## **Trust Fund**

Count as unearned income trust fund withdrawals or dividends that the household can receive from a trust fund that is exempt from resources.

**Unemployment Compensation Payments**

Count the gross amount as unearned income, minus any amount being recouped for an Unemployment Insurance Benefit (UIB) overpayment.

Count the cash value of UIB in a UI debit account, less amounts deposited in the current month, as a resource. Account inquiry is accessible to a UIB recipient online at [www.myaccount.chase.com](http://www.myaccount.chase.com) or at any Chase Bank automated teller machine free of charge.

**Vacation Pay**

<b>If an individual receives vacation pay....</b>	<b>Consider it...</b>
during or before termination of employment,	earned income.
after termination of employment in one lump sum,	a liquid resource in the month received.
after termination of employment in multiple checks,	unearned income.

**Vendor Payments**

Exempt vendor payments if made by a person or organization outside the household directly to the household's creditor or person providing the service.

Exception: Count as income money that is legally obligated to the household, but which the payer makes to a third party for a household expense.

**Wages, Salaries, Commissions**

Count the actual (not taxable) gross amount as earned income.

If a person asks his employer to hold his wages or the person's wages are garnished, count this money as income in the month the person would otherwise have been paid. If, however, an employer holds his employees' wages as a general practice, count this money as income in the month it is paid. Count an advance in the month the person receives it.

**Workers' Compensation Payments**

Count the gross payment as unearned income, minus any amount being recouped for a prior worker's compensation overpayment or paid for attorney's fees. NOTE: The Texas Workforce Commission (TWC) or a court sets the amount of the attorney's fee to be paid.

Do not allow a deduction from the gross benefit for court-ordered child support payments.

Exception: Exclude worker's compensation benefits paid to the household for out-of-pocket health care expenses. Consider these payments as reimbursements.

Verify countable income, including recently terminated income, at initial application and when changes are reported. Verify countable income at review, if questionable.

Proof may include but is not limited to:

- Last four (4) consecutive paycheck stubs (for everyone in your household),
- Form 128, Employment Verification Form, which we provide,
- W-2 forms, [may include other members of household]
- Notes for cash contributions,
- Business records,
- Social Security award letter,
- Court orders or public decrees (support documents),
- Sales records
- Income tax returns, and
- Statements completed, signed, and dated by the self-employed person.

## **DOCUMENTING INCOME**

On Form 101, document the following items.

- Exempt income and the reason it is exempt
- Unearned income, including the following items:
  - Date income is verified,
  - Type of income,
  - Check or document seen,
  - Amount recorded on check or document,
  - Frequency of receipt, and
  - Calculations used.
- Self-employment income, including the following items:
  - The allowable costs for producing the self-employment income, Receipts must be provided.
  - Other factors used to determine the income amount.
- Earned income, including the following items:
  - Payer's name and address,
  - Dates of each wage statement or pay stub used,
  - Date paycheck is received,
  - Gross income amount,
  - Frequency of receipt, and
  - Calculations used.
- Allowable deductions.

A household is ineligible for a period of 6 months if they intentionally alter their income to become eligible for the Plan (example: have employer lower their hourly or salary amount).

## **BUDGETING INCOME**

### **General Principles**

- Count income already received and any income the household expects to receive. If the household is not sure about the amount expected or when the income will be received, use the best estimate.
- Income, whether earned or unearned, is counted in the month that it is received.
- Count terminated income in the month received. Use actual income and do not use conversion factors if terminated income is less than a full month's income.
- View at least two pay amounts in the time period beginning 45 days before the interview date or the process date for cases processed without an interview. However, do not require the household to provide verification of any pay amount that is older than two months before the interview date or the process date for cases processed without an interview. If prior coverage is requested-then prior 3 months verification is required.
- When determining the amount of self-employment income received, verify four recent pay amounts that accurately represent their pay. Verify one month's pay amount that accurately represent their pay for self-employed income received monthly. Do not require the household to provide verification of self-employment income and expenses for more than two calendar months before the interview date or the case process date if not interviewed, for income received monthly or more often. If prior coverage is requested-then prior 3 months verification is required.
- Accept the applicant's statement as proof if there is a reasonable explanation of why documentary evidence or a collateral source is not available and the applicant's statement does not contradict other individual statements or other information received by the entity.
- The self-employment income projection, which includes the current month and 3 months prior, is the period of time that the household expects the income to support the family.
- There are deductions for earned income that are not allowed for unearned income.
- The earned income deductions are not allowed if the income is gained from illegal activities, such as prostitution and selling illegal drugs.

## **Steps for Budgeting Income**

- Determine countable income.
- Determine how often countable income is received.
- Convert countable income to monthly amounts.
- Convert self-employment allowable costs to monthly amounts.
- Determine if countable income is earned or unearned.
- Subtract converted monthly self-employment allowable costs, if any, from converted monthly self-employment income.
- Subtract earned income deductions, if any.
- Subtract the deduction for Medicaid individuals, if applicable.
- Subtract the deduction for legally obligated child support payments made by a member of the household group, if applicable.
- Compare the monthly gross income to the TGC monthly income standard.

### **Step 1**

#### **Determine countable income.**

Evaluate the household's current and future circumstances and income.  
Decide if changes are likely during the current or future months.

If changes are likely, then determine how the change will affect eligibility.

### **Step 2**

#### **Determine how often countable income is received, such as monthly, twice a month, every other week, weekly.**

All income, excluding self-employment. Based on verifications or the person's statement as best available information, determine how often income is received. If the income is based hourly or for piecework, determine the amount of income expected for one week of work.

#### Self-employment Income.

- Compute self-employment income, using one of these methods:
  - **Annual.** Use this method if the person has been self-employed for at least the past 12 months.
  - **Monthly.** Use this method if the person has at least one full representative calendar month of self-employment income.
  - **Daily.** Use this method when there is less than one full representative calendar month of self-employment income, and the source or frequency of the income is unknown or inconsistent.
- Determine if the self-employment income is monthly, daily, or seasonal, since that will determine the length of the projection period.

- The projection period is monthly if the self-employment income is intended to support the household for at least the next 6 months. The projection period is the last 3 months and the current month.
- The projection period is seasonal if the self-employment income is intended to support the household for less than 12 months since it is available only during certain months of the year. The projection period is the number of months the self-employment is intended to provide support.
- Determine the allowable costs of producing self-employment income by accepting the deductions listed on the 1040 U.S. Individual Income Tax Return or by allowing the following deductions:
  - Capital asset improvements,
  - Capital asset purchases, such as real property, equipment, machinery and other durable goods, i.e., items expected to last at least 12 months,
  - Fuel,
  - Identifiable costs of seed and fertilizer,
  - Insurance premiums,
  - Interest from business loans on income-producing property,
  - Labor,
  - Linen service,
  - Payments of the principal of loans for income-producing property,
  - Property tax,
  - Raw materials,
  - Rent,
  - Repairs that maintain income-producing property,
  - Sales tax,
  - Stock,
  - Supplies,
  - Transportation costs. The person may choose to use 50.0 cents per mile instead of keeping track of individual transportation expenses. Do not allow travel to and from the place of business.
  - Utilities

NOTE: If the applicant conducts a self-employment business in his home, consider the cost of the home (rent, mortgage, utilities) as shelter costs, not business expenses, unless these costs can be identified as necessary for the business separately. The only businesses that do not fall under these guidelines are those that are considered “store-front”, meaning that you are not allowed to operate a store environment in your home.

The following are not allowable costs of producing self-employment income:

- Costs not related to self-employment,
- Costs related to producing income gained from illegal activities, such as prostitution and the sale of illegal drugs,
- Depreciation,
- Net loss which occurred in a previous period, and

- Work-related expenses, such as federal, state, and local income taxes, and retirement contributions.

### Step 3

**Convert countable income to monthly amounts**, if income is not received monthly.

When converting countable income to monthly amounts, use the following conversion factors:

- Multiply weekly amounts by 4.33.
- Multiply amounts received every other week by 2.17.
- Add amounts received twice a month (semi-monthly).
- Divide yearly amounts by 12.

### Step 4

**Convert self-employment allowable costs to monthly amounts.**

When converting the allowable costs for producing self-employment to monthly amounts, use the conversion factors in Step 3 above.

### Step 5

**Determine if countable income is earned or unearned.** For earned income, proceed with Step 6. For unearned income, skip to Step 8.

### Step 6

**Subtract converted monthly self-employment allowable costs, if any, from converted monthly self-employment income.**

### Step 7

**Subtract earned income deductions, if any.** Subtract these deductions, if applicable, from the household's monthly gross income, including monthly self-employment income after allowable costs are subtracted:

- Deduct \$120.00 per employed household member for work-related expenses.
- Deduct 1/3 of remaining earned income per employed household member.
- Dependent childcare or adult with disabilities care expenses shall be deducted from the total income when determining eligibility, if paying for the care is necessary for the employment of a member in the CP household. This deduction is allowed even when the child or adult with disabilities is not included in the CP household. Deduct the actual expenses up to:
  - \$200 per month for each child under age 2,
  - \$175 per month for each child age 2 or older, and
  - \$175 per month for each adult with disabilities.

Exception: For self-employment income from property, when a person spends an average of less than 20 hours per week in management or maintenance activities, count the income as unearned and only allow deductions for allowable costs of producing self-employment income.

## Step 8

**Subtract the deduction for Medicaid individuals, if applicable.** This deduction applies when the household has a member who receives Medicaid and, therefore, is disqualified from the TGC household. Using the Deduction chart on the following page to deduct an amount for support of the Medicaid member(s) as follows: Subtract an amount equal to the deduction for the number (#) of Medicaid-eligible individuals.

### **Deductions for Medicaid-Eligible Individuals**

*\*\*\*See Appendix V-Graphs*

**Consider the remainder as the monthly gross income** for the TGC household

## Step 9

**Subtract the Deduction for Child Support, Alimony, and Other Payments to Dependents Outside the Home, if applicable.**

Allow the following deductions from members of the household group, including disqualified members:

- The actual amount of child support and alimony a household member pays to persons outside the home.
- The actual amount of a household member's payments to persons outside the home that a household member can claim as tax dependents or is legally obligated to support.

**Consider the remaining income as the monthly net income for the CP household.**

## Step 10

**Compare the household's monthly gross income to the 21% FPIL monthly income standard**, using the TGC Monthly Income Standards chart below.

*\*\*\*Refer to Appendix V*

A household is eligible if its monthly gross income, after rounding down cents, does not exceed the monthly income standard for the TGC household's size.

# **SECTION 3: CASE PROCESSING**

## CASE PROCESSING

### General Principles

- Use the application, documentation, and verification procedures as established by Tom Green County.
- Issue Form 100 to the applicant or his representative on the same date that the request is received.
- Accept an identifiable application.
- Assist the applicant with accurately completing the Form 100 and getting all needed verifications and information if the applicant requests help in completing the application process. The Caseworker will explain to the Applicant that she/he is only filling in the information based on what is being provided by Applicant. The Applicant must be aware that any and all information provided to Caseworker has to be accurate. Anyone who helps fill out the Form 100 must sign and date it.
- If the applicant is incompetent, incapacitated, or deceased, someone acting responsibly for the client (a representative) may represent the applicant in the application and the review process, including signing and dating the Form 100 on the applicant's behalf. This representative must be knowledgeable about the applicant and his household. Document the specific reason for designating this representative.
- Determine eligibility based on residence, household, resources, income, and citizenship.
- Allow at least 14 days for requested information to be provided, unless the household agrees to a shorter timeframe, when issuing Form 103. Note: The requested information is documented on Form 103 and a copy is given to the household.
- Use any information received from the provider of service when making the eligibility determination; but further eligibility information from the applicant may be required.
- The date that a complete application is received is the application completion date, which counts as Day 0 (Zero).
- Determine eligibility not later than the 14th day after the application completion date based on the residence, household, resources, income, and citizenship guidelines.
- Issue written notice on appropriate DSHS forms. If the County denies health care assistance, the written notice shall include the reason for the denial and an explanation of the procedure for appealing the denial.
- Review each eligible case record at least once every six months.
  - Approved applications are valid for a period not to exceed six (6) months but no less than 1 month.
  - Before the expiration date, all clients will receive a notice by mail that benefits will expire in the next two weeks.
  - All clients must start the eligibility process all over again at the time of re-application.
- Current eligibility continues until a change resulting in ineligibility occurs and a Form 117 is issued to the household.
- Use the "Prudent Person Principle" in situations where there are unusual circumstances and document evidence that determines eligibility
- Consult the county's legal counsel to develop procedures regarding disclosure of information.
- The applicant has the right to:
  - Have his application considered without regard to race, color, religion, creed, national origin, age, sex, disability, or political belief;
  - Request a review of the decision made on his application or re-certification for health care assistance; and

- Request, orally and in writing, a fair hearing about actions affecting receipt or termination of health care assistance.
- The applicant is responsible for:
  - Completing the application accurately and truthfully.  
Applications are available at the Tom Green County Indigent Healthcare Office located 19 N Irving, San Angelo, Texas 76903.
  - Providing all needed information requested by staff. If information is not available or is not sufficient, the applicant may designate a responsible contact for the information. A collateral contact could be any objective third party who can provide reliable information. A collateral contact does not need to be separately and specifically designated if that source is named either on Form 100 or during the interview.
  - Attending the scheduled interview appointment.

All appointments will be set automatically by the TGC eligibility office and will be the applicant's responsibility to attend the scheduled appointment. Failure to attend the appointment will result in denial of assistance.

The client's application is valid for 30 days from the identifiable date and it is within that 30-day period that the client may reschedule another appointment with the eligibility office. After the 30-day period, the client would have to fill out another application and begin the application process all over again.

- Reporting changes, which affect eligibility, within 14 days after the date that the change actually occurred. Failure to report changes could result in repayment of expenditures paid.
  - Any changes in income, resources, residency other than federal cost of living adjustments mandates reapplication and/or reconsideration of determination.
  - To cooperate or follow through with an application process for any other source of medical assistance before being processed for the County Indigent Care Plan, since Tom Green County is a payor of last resort.
  - Note: Misrepresentation of facts or any attempt by any applicant or interested party to circumvent the policies of the County in order to become or remain eligible is grounds for immediate and permanent refusal of assistance. Furthermore, if a client fails to furnish any requested information or documentation, the application will be denied.

immediate and permanent refusal of assistance. Furthermore, if a client fails to furnish any requested information or documentation, the application will be denied

### **Step 5**

**Schedule appointment to interview** the applicant or his representative face-to-face.

**Provide applicant written and verbal instructions** indicating the date, time, place of the interview, and name of interviewer.

Determine the applicant’s Eligibility Effective Date. Current Eligibility begins on the first calendar day in the month that an identifiable application is filed or the earliest, subsequent month in which all eligibility criteria are met. (Exception: Eligibility effective date for a new county resident begins the date the applicant is considered a county resident. For example, if the applicant meets all four eligibility criteria, but doesn’t move to the county until the 15th of the month, the eligibility effective date will be the 15th of the month, not the first calendar day in the month that an identifiable application is filed.)

**Prior Coverage. The applicant may be retroactively eligible in any of the three calendar months before the month the identifiable application is received if all eligibility criteria are met.**

Issue Form 109, Notice of Eligibility, including the Eligibility Effective Date along with the TGC Identification Card.

### **Inmate Coverage:**

Inmates are covered during their incarceration. Coverage expires upon release date.

### **Termination:**

In certain circumstances, a client may have their benefits revoked before their coverage period expires. Clients will be notified by mail or phone two weeks before their TGC benefits will terminate, along with the explanation for termination. Coverage will terminate on the date listed on Form 117, Notice on Ineligibility.

Note: Clients who are found to have proof of another source of healthcare coverage will be terminated on the day that the other payor source was identified.

## **Reimbursement Requests From Non-Mandated Providers**

**Continuity of Care:** It is the intent of the County to assure continuity of care is received by the patients who are on the active client list. For this purpose, mandated provider relationships have been established and maintained for the best interest of the patients' health status. The client/patient has the network of mandated providers explained to them and signs a document to this understanding at the time of eligibility processing in the Indigent Health Care Office. Additionally, they demonstrate understanding in a like fashion that failure to use mandated providers, unless otherwise authorized, will result in them bearing independent financial responsibility for their actions.

**Prior Approval:** A non-mandated health care provider must obtain approval from the Tom Green County Indigent Care Plan Office before providing health care services to an active TGC patient. Failure to obtain prior approval or failure to comply with the notification requirements below will result in rejection of financial reimbursement for services provided.

### **Mandatory Notification Requirements:**

- The non-mandated provider shall attempt to determine if the patient resides within County's service area when the patient first receives services if not beforehand as the patients' condition may dictate.
- The provider, the patient, and the patient's family shall cooperate with the County in determining if the patient is an active indigent client before services are provided.
- Each individual provider is independently responsible for their own notification on each case as it presents.
- If a non-mandated provider delivers emergency or non-emergency services to an indigent patient who the provider suspects might be an active client with Tom Green County, the provider shall notify Tom Green County Indigent Health Care Office that services have been or will be provided to the patient. The provider will use email [IHCNotify@co.tom-green.tx.us](mailto:IHCNotify@co.tom-green.tx.us) to submit notifications of services to be rendered. Notification must be on file before Tom Green County Indigent Health Care will pay for services rendered.

- The notice shall be made:
  - (1) By telephone not later than the 72nd hour after the provider determines that the patient resides in the County’s service area and is suspect of being an active client on the County’s TGC Plan; and
  - (2) By mail postmarked no later than the fifth working day after the date on which the provider determines that the patient resides in the County’s service area.

**Authorization:** The County’s TGC Office may authorize health care services to be provided by a non-mandated provider to a TGC patient only:

- In an emergency (as defined below and interpreted by the County);
- When it is medically inappropriate for the County’s mandated provider to provide such services; or
- When adequate medical care is not available through the mandated provider.

**Emergency Defined:** An “emergency medical condition” is defined as a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in:

- Placing the patients’ health in serious jeopardy,
- Serious impairment of bodily functions, or
- Serious dysfunction of any bodily organ or part.

**Emergency Medical Services:** Clients are to (as conditions allow) notify EMS about their mandated provider as a preferred destination. This service is not eligible for payment.

**Reimbursement:** In such event, the County shall provide written authorization to the non-mandated provider to provide such health care services as are medically appropriate, and thereafter the County shall assume responsibility for reimbursement for the services rendered by the non-mandated provider at the reimbursement rates approved for the County’s mandated provider, generally but not limited to, being those reimbursement rates approved by the Texas Department of State Health Services pursuant to the County Indigent Health Care And Treatment Act. Acceptance of reimbursement by the non-mandated provider will indicate payment in full for services rendered.

If a non-mandated provider delivers emergency or non-emergency services to a patient who is on the TGC Plan and fails to comply with this policy, including the mandatory notice requirements, the non-mandated provider is not eligible for reimbursement for the services from the County.

**Return to Mandated Provider:** Unless authorized by the County’s TGC Office to provide health care services, a non-mandated provider, upon learning that the County has selected a mandated provider, shall see that the patient is transferred to the County’s selected mandated provider of health care services.
